## NEWS LETTER

December 1952

### STATISTICAL QUALITY CONTROL

December 8, 1952

A program on statistical quality control will be presented at a joint meeting of the Washington Statistical Society and the American Society for Quality Control, under the chairmanship of Dr. William R. Pabst, Jr., Navy Department. Speakers will be:

Dr. W. Edwards Deming, Bureau of the Budget  
Statistical Quality Control Here and Abroad

Major General Leslie E. Simon, Department of the Army  
Statistical Control in Development of Ammunition

The meeting will be held at 8 P.M., Monday, December 8, in Room 101, Hall of Government, George Washington University, 21st and G Streets, N.W.

### PROPOSED SEMINAR ON INTERINDUSTRY ECONOMICS

The Executive Committee of the Washington Statistical Society is considering a series of about six special sessions on Interindustry Economics which, if held, would be in addition to the regular monthly meetings. The subject matter would be mostly an expansion of the technique of Interindustry Economics as summarized briefly by Mr. Duane Evans at the last meeting. With the discussion of technique would be a summary coverage of a number of kinds of applications toward which the technique might be aimed. This special series of meetings will be undertaken if there is a sufficient expression of interest on the part of the members. If you are interested in this proposal, communicate with the secretary, Executive 3300, (code 189), extension 696.

Margaret Martin  
Secretary-Treasurer
