Edwin Goldfield • H. Burke Horton
Margaret E. Martin • Walt R. Simmons

NEWSLETTER

NOVEMBER 1955

EXPERIMENTAL POTPOURRI

The design of experiments involves more than the knowledge of where to look for available designs and efficient computational procedures for analyzing results. Statisticians in the Federal Government will explain a few interesting aspects of their design problems.

CHAIRMAN: William R. Pabst, Jr., Chief Statistician, Bureau of Ordnance,
Department of the Navy.

SPEAKERS: Churchill Eisenhart, Chief, Statistical Engineering Laboratory, National
Bureau of Standards

Subject: Random Notes

Glenn L. Burrows, Statistical Clearance and Standards, Department of
Agriculture

Subject: Experimental By-ways

Jerome Cornfield, Office of the Director, National Institutes of Health

Subject: Experiments Involving Bio-assay of an Adrenal Hormone

Date: Monday, November 28, 1955

Time: 8:00 p.m.

Place: Room 1, Downstairs Hall of Government, George Washington
University, 21st and G Streets, N. W.

JOBS AND PEOPLE

The USES-DC has a number of job openings on hand for statisticians, including Analytical Statisticians at grades GS-5 to 11, Market Research Analysts at GS-9 to 11 and Survey and Mathematical Statistician positions at grades GS-7 to 11. If you are interested in any of these openings, get in touch with Mr. Todd, DIstrict 7-7000, ext. 62 (Code 187) or drop in at the USES-DC, 1724 F Street. At this year's annual meetings, December 27-30, in New York City, the U.S. Employment Service will operate a placement service for all the societies meeting at that time, including the American Economic Association, the American Statistical Association and the Institute of Mathematical Statistics. If you have unfilled jobs which you would like listed or are interested in being considered for job openings, get in touch with the USES-DC before December 5th so that your papers may be sent to New York in time for the meetings.
