STATISTICAL ANALYSIS IN METEOROLOGY

Meteorology deals with the largest number of observations of any science. Treatment of such vast amounts of data in frequency distributions and time series is one of the most important applications of statistics.

CHAIRMAN: H. E. Landsberg, Office of Climatology
Weather Bureau

SPEAKERS: Donald L. Gilman, Extended Forecast Section
Weather Bureau

"Statistics and Long-Range Forecasting"

Herbert C. S. Thom, Office of Climatology
Weather Bureau

"An Application of the m^{th} Value Distribution
in Meteorology"

DISCUSSANTS: Glenn W. Brier, Office of Meteorological Research
Weather Bureau

Julius Lieblein, David Taylor Model Basin
Navy Department

Date: Wednesday, November 19, 1958

Time: 8:00 p.m.

Place: Room 1 (downstairs), Hall of Government
George Washington University
21st and G Streets, N. W.
