NEWS LETTER

M A Y 1961

SCIENTIFIC SAMPLING THEORY - A DECADE OF PROGRESS

SPEAKER: Tore Dalenius
University of Stockholm

DISCUSSANTS: W. Edwards Deming
Consultant in Statistical Surveys

Morris H. Hansen
U. S. Bureau of the Census

Dr. Dalenius, who is preparing a monograph on the subject under discussion, will discuss advances made in the past ten years in such areas as non-sampling error models; multiple sample units drawn with unequal probabilities; unbiased ratio estimates; difference estimates as a unified approach to unbiased, ratio, and regression estimates; optimum stratification; simplified models for variance estimation; and related topics.

Date: Wednesday, May 31, 1961

Time: 8:00 p. m.

Place: Room 1, Hall of Governments
George Washington University
21st and G Streets, N. W.

All members in good standing on April 25, 1961 are eligible to vote. You are urged to return your ballots as soon as possible. Ballots received after May 31 are invalid.
