NEWS LETTER
MAY, 1962

A REVIEW OF STATISTICAL PROBLEMS IN URBAN AFFAIRS

Chairman: Edwin D. Goldfield
Statistical Reports Division
Bureau of the Census

Speakers: Morton J. Schussheim, Office of the
Administrator, Housing and Home Finance
Agency, "The View From The Bridge."

Albert Mindlin, District of Columbia
Government and Metropolitan Washington
Council of Governments, "The View From
The Engine Room."

Discussant: Edward B. Olds, Health and Welfare Council
of the National Capital Area

The 1960 Census merely dramatized what has long been known--that the problems of urban communities today constitute one of the most critical complex of problems in national affairs. The Housing and Home Finance Agency, devoted almost exclusively to urban affairs, is one of the largest independent agencies in the Federal Government, and the creation of a Department of Urban Affairs is imminent. The WSS is planning a series of meetings to discuss the statistical components of urban problems and their solutions. This is the first of the series, and will constitute a survey of the field.

Date: Thursday, May 31
Time: 8:00 p.m.
Place: Room 319, Corcoran Hall
George Washington University
725 21st Street, N. W.
(Across the street from our usual meeting place)

This is the Society's Annual Meeting. Officers and Executive Committee for the coming year will be announced, and the Treasurer's report submitted. Please vote; and remember your ballots must be in the national office by May 31.
