NEWSLETTER - MAY, 1964

THE NATIONAL HEALTH SURVEY - 7 YEARS AFTER

CHAIRMAN: Forrest E. Linder, National Center for Health Statistics

SPEAKERS: All at National Center for Health Statistics.

Forrest E. Linder, "Brief History and Present Structure of the National Center for Health Statistics."

Philip S. Lawrence, "Types and Examples of Developmental and Evaluative Research."

Garrie J. Losee, "Some Sampling Aspects of the Health Statistics Programs."

Monroe S. Sirkin, "The Program of Health and Vital Record Surveys."

During the seven years of its existence, the National Health Survey has steadily refined, sharpened, and improved its theoretical concepts, technics of data collection, control of data processing, analyses of data, and research program. The speakers will discuss some of the most important of these improvements.

WHEN AND WHERE: Tuesday, May 26, 8:00 P.M., Room 319 Corcoran Hall, George Washington University, 725 - 21st Street, N.W.

METHODOLOGY SECTION

George Barnard, Imperial College, University of London, "Recent British work on Control and Forecasting Procedures for Economic and Industrial Time Series."

WHEN AND WHERE: Wednesday, May 13, 8:15 P.M., Room 319 Corcoran Hall, George Washington University, 725 - 21st Street, N.W.

The May 26 meeting is our Annual Meeting. The Society's financial status, new officers, and other housekeeping items will be mentioned briefly.
