NEWSLETTER - JANUARY, 1965

ECONOMIC STATISTICS COMMITTEE

Input - Output Economics: Development and Use.

CHAIRMAN: Morris R. Goldman, Office of Business Economics

SPEAKERS: Martin L. Marimont
Beatrice N. Vaccara
National Economics Division, OBE

Jack Alterman
Bureau of Labor Statistics

As many of you know, input-output is a description of the national economy in terms of structural interdependence among all of its industrial sectors. The meeting will discuss the first new input-output table in over 10 years, its integration with the system of national economic accounts, and plans for its continuation, updating and expansion.

WHEN & WHERE: Wednesday, January 13, 1965, 8 P.M., Room 319 Corcoran Hall
George Washington University, 725 - 21st Street, N. W.
