NEWS LETTER - NOVEMBER, 1965

A SURVEY OF MODEL BUILDING AND STATISTICAL INFERENCE IN ECONOMETRICS.

Carl F. Christ, Department of Political Economy, John Hopkins
University

Econometric models consisting of sets of equations are designed to represent the interdependence and interaction among the various sectors of the economy. They are being used increasingly both inside and outside government. Professor Christ, author of a forthcoming book on econometrics, has been following these developments closely.

WHEN AND WHERE: 8:00 P.M., Monday, November 8th, Conference Room B, rear of Interdepartmental Auditorium, Labor Department Building, Constitution Avenue between 12th and 14th Streets., N. W.
