NEWS LETTER -- MAY, 1967

Joint Meeting with The Institute of Management Sciences (TIMS)

Policies, Problems and Issues Posed by Proposals  
for a National Statistical Data Center

Practically everyone who follows Federal statistical matters is by now aware of the proposals for a national statistical data center. There have been so far three preliminary professional Reports (Ruggles, Dunn, Kaysen), two Congressional Hearings (Gallagher, Long), and numerous magazine and newspaper articles. Controversy rages and the landscape is heated up. Is any light emerging from the heat? Come to the meeting and decide for yourself!

Edgar Dunn, Resources for the Future

Morris Hansen, U. S. Census Bureau

Paul Krueger, Office of Statistical Standards,

Over the past two years the WSS has established a Building Representatives System, wherein a WSS member in each bldg that contains a significant number of persons interested in WSS activities volunteers to carry out various tasks of benefit to the Society, eg, posting notices, recommending new members, & other requested services. The Society is grateful for the help of these unsung volunteers & wishes hereby to make them a little less unsung. The list below is of current volunteers. Our apologies for any accidental errors.
